

C1 Electronic Accessories

APDM * Seat Heaters * iPod Interface * Fog Lights

APDM™ Features

- Automatic Power Distribution Module (APDM™)
- Allows quick and easy "plug-in" connection of eight (8) individually fused electric accessories
- Protects the vehicle electronic circuitry
- Wired directly to the vehicle's battery
- Ignition Monitor wire avoids drainage of battery
- Mounted under the vehicle dash board for convenient access
- Battery HOT or Ignition HOT discretionary switching of each accessory
- Safe time by connecting your C1 electric accessories and other components to the smart C1 APDM™

CarbonTech™ Seat Heater Features

- Advanced and proven carbon fiber technology (FMVSS 302 compliant)
- ISO/EN & TUV certified Fast heat up and max-heat performance
- Dual Pad / Special Heater Application for Camry Seats (no cutting required)
- Three position switch (High/Low/Off), lighted (LED), round & OE-rectangular options available
- Quick disconnect wire harness

iPod Interface Features

- True Digital Sound quality
- Transfers all iPod functions and your play-list to the car stereo
- Powers your iPod and allows you to control it through your radio/stereo control buttons
- Installs in minutes
- Compatible with all GPS/NAV, CD changer and standard Stereo systems

Fog Light Features

- SAE/DOT approved
- Universal trim bezzel
- Fits in Factory/OE slot location
- Wire harness, brackets and instructions supplied
